

⑤ Need  $\boxed{C} \boxed{N}$  user C-M compiler so interpret  
not needed but can't write compiler in

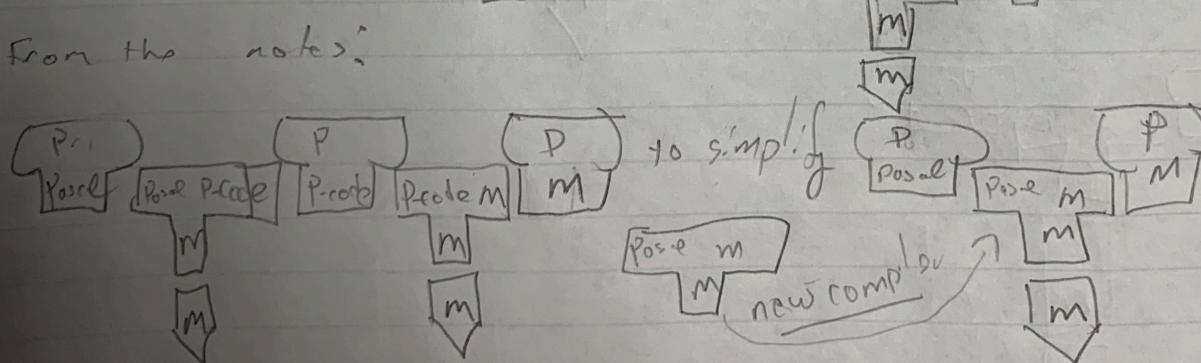

⑥ use new compiler with source  $\boxed{\text{pri}} \boxed{C} \boxed{P}$  to get  $\boxed{\text{pri}} \boxed{N}$

⑧ Need  $\boxed{C} \boxed{N}$

have  $\boxed{C} \boxed{N}$  and  $\boxed{C} \boxed{M}$  so,  $\boxed{C} \boxed{N}$   $\boxed{C} \boxed{C} \boxed{N}$   $\boxed{C} \boxed{N}$

⑨ From the notes:

This new precomp shortens the compilation process and reduces time.
